Re: ER# 2010-8010-042-F  
FHWA: Phase IA Archaeological  
Report, National Gateway Initiative  
Project, Allegheny, Somerset, and  
Bedford Counties

Dear Mr. Stockert:

The Bureau for Historic Preservation (the State Historic Preservation Office) has reviewed the above named project in accordance with Section 106 of the National Historic Preservation Act of 1966, as amended in 1980 and 1992, and the regulations (36 CFR Part 800) of the Advisory Council on Historic Preservation as revised in 1999 and 2004. These regulations require consideration of the project's potential effect upon both historic and archaeological resources.

We agree with the recommendations of this report and in our opinion no further archaeological work is necessary for this project as it is currently designed. Should it be determined that additional ground-disturbing activities will be undertaken, additional archaeological survey may be necessary.

Please send four copies of the final report (one unbound and all with original photographs) for our files and distribution to the various repositories. As you discussed with Kira Heinrich of our office via phone, please provide the information submitted in this submission in report format as outlined in our Guidelines for Archaeological Investigation (November 2008).

If you need further information in this matter please consult Kira Heinrich at (717) 705-0700.

Sincerely,

Douglas C. McLearen, Chief  
Division of Archaeology &  
Protection
